

# HUSSMANN®

Now Featuring the Lowest Energy Light in the Marketplace...

## EcoShine 16 Watt LED Reach-In Retrofit

Save  
78% in  
Energy  
Costs!

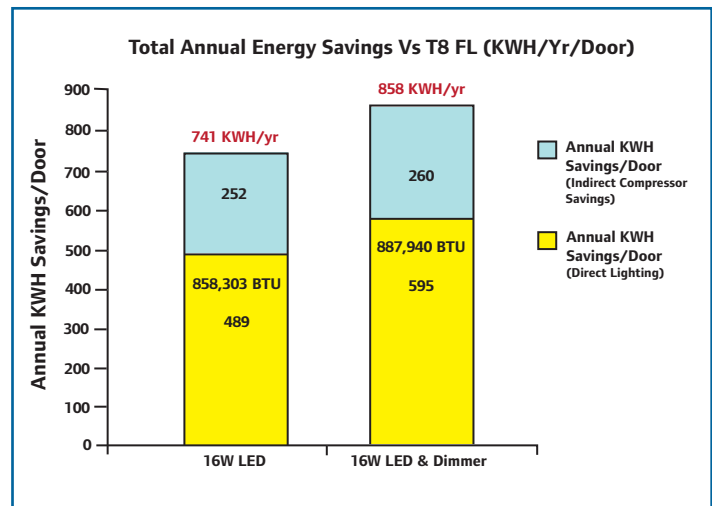

### EcoShine Energy Plus – Best Energy Reduction and ROI in the Industry

Retrofit now with EcoShine Energy Plus and get:

- New 16 watt LEDs that lower energy costs without compromising brightness
- 78% energy savings over fluorescent lights
- As bright as the competition's higher energy LED lights
- Uniform product illumination
- Design Lights Consortium certified for potential rebates through numerous utilities and energy consortiums throughout the U.S. and Canada
- Excellent color quality
- Attracts shopper attention toward the product with a concealed light source
- Standard nationwide installation availability
- Extended 5 yr warranty on LED lighting system, including power supply, for both parts and labor (with Hussmann approved installation)
- Financing option available
- Save even more with dimming sensor (*see back for details*)

# Dimming Sensors Save More Energy & Extend Life of Lamps

- Save up to 89% in energy over T8 fluorescents with sensor (20% dimming)
- Lighting flexibility (unlike Wattstopper)
- 3 dimming levels – 100% (off), 80%, 50%
- Can be turned on and off with no warm-up time
- Dims the lights after no motion is detected in aisle for 30 seconds
- Senses shopper movement in a 16 x 16 sq. ft. area
- Lights ramp up to 100% in just over a second
- Extends life of lamp 2-3 years
- Lower maintenance and operating costs
- Available in three colors – black, pearl or grey

*Dimming sensors can be easily added to existing cases as an accessory. Contact your Hussmann sales representative for more information.*
